Projects

Education website

URL (https://vigneswaran2122.github.io/Education/)

I have done a static website by using HTML,CSS and Javascript. Khan academy is an innovative online platform designed to revolutionize the way students and educators interact and learn.

Travel website

URL (https://vigneswaran2122.github.io/Travel-With-Us/)

I have done a static website by using HTML and CSS.

A travel website serves as a virtual gateway to explore and plan journeys. It features information on destinations, accommodations, flights, and activities. Users can browse through travel itineraries, read reviews, and make reservations.

Portfolio website

URL (https://vigneswaran2122.github.io/Portfolio/)

I have done a static website by using HTML and CSS.

A portfolio website is a personalized online space showcasing an individual's or a professional's work, achievements, and skills. It serves as a digital resume, allowing visitors to explore a curated collection of projects, artworks, or accomplishments.

Spicy website

URL (https://vigneswaran2122.github.io/Spicy/)

I have done a static website by using Bootstrap

A spicy website is a virtual destination dedicated to all things hot and flavorful. It tantalizes taste buds with a variety of spicy foods, recipes, and culinary delights.

Restaurant website

URL (https://vigneswaran2122.github.io/Restaurant/)

I have done a static website by using Bootstrap

A restaurant website is a digital hub for showcasing a dining establishment's offerings, ambiance, and services. Visitors can explore the menu, including descriptions and visuals of dishes, to make informed choices.

Ecommerce Website

URL (https://elaborate-tartufo-375118.netlify.app/)

I have done a project by using ReactJs It is a API project.An ecommerce website is an online platform that facilitates buying and selling of goods or services. It typically includes features such as product listings, shopping carts, secure payment gateways, and order management.
